

Purpose of Checklist

This checklist will help to assure that your submitted application is consistent with City of Centennial regulations. On the attached checklist, please check the box when the requirement has been met. When all items are complete, please read and sign the checklist at the bottom and submit it with your application and submittal materials.

Purpose of a Site Plan

A site plan which complies with the terms, conditions and requirements of the approved zone district must be submitted and approved prior to the issuance of building permits for improvements to any site or sites within the project covered by the application.

Site Plan Checklist

Please check off the following items to assure your application is complete. Sign and submit this checklist with your application.

Applicant Staff

-	General Information. Project name, type of proposal, legal description of the plan		
	or plat's land area, date of the drawing, scale, north arrow, and existing zoning of		
	the parcel proposed for development. Each sheet shall have the case number a		
	bottom left-hand corner that reads, "Case No. XX-XXX."		
	Vicinity Map. Vicinity map with north arrow (scale of 1 in. = 2,000 ft. preferred) with		
	an emphasis on the major roadway network within one mile of the parcel proposed		
	for development.		
	Development Standards Compliance Chart. One or more charts comparing all of		
	the regulations and requirements of the proposed site plan or plat with the Land		
	Development Code that apply to the proposed use(s), building heights, gross floor		
	area, residential density, gross floor area ratios, setbacks, open space, parking		
	ratios, etc.		
	Ownership, Zoning, and Use of Adjacent Property. Ownership, zoning and use of all		
	adjacent parcels.		
	Existing and Proposed Topography. Existing and proposed finished grade		
	topography at two-foot contours or less, tied to datum acceptable to the City.		
	Topography. The topography of the parcel proposed for development at two-foot		
	intervals.		
	Lots. The layout and dimensions of lots.		
	Building Footprints. The footprint of any proposed multifamily residential structures		
	or enclosed or covered commercial, retail, industrial or institutional building(s).		
	Buildings and Structures. The geographic location, dimensions, minimum and		
	maximum heights and gross floor area of all existing and proposed buildings and		
	structures, the use(s) to be contained within them, and the location of entrances		
	and loading and storage areas.		
	Setbacks. All front, side and rear building lines with setbacks.		
	Curb Cuts, Driveways, and Parking Areas. All proposed curb cut and driveway		
	locations and dimensions, off-street parking locations, dimensions and total		
	numbers by type (full size, compact, handicap, etc.), and types of surfacing, such as		
	asphalt paving, concrete, gravel, etc.		
	Display of Streets. The location, names, widths, and type of surfacing of all streets		
	shall be shown on the plat. Existing right(s)-of-way shall bear notations of		
	dedication by Book and Page number. Private drives and streets shall be labeled as		
	such. Include a contour map where terrain might affect the location of streets.		
	Utilities. The location of all existing and proposed public utilities including storm and		
	sanitary sewers, water, gas and power lines. Show all public and private utility		
	service lines and/or main lines with appurtenances, and location(s) and		
	dimension(s) of all existing/proposed easements.		
	Open Space. Show all areas of protected open space as required by the applicable		
	open space ratio or landscape surface ratio. Show all pedestrian ways, open space,		
	parks, playgrounds, and recreation areas, and a description of these improvements.		

Special Use Areas. Location and size of proposed civic or special uses of land to be			
considered for dedication to public or common use.			
Resource Protection Areas. Areas set aside for resource protection, as required by Article 7, Open Space, Floodplain Management, and Environmental Quality.			
Outdoor Waste Disposal. Location of outdoor waste disposal, including any trash			
receptacle systems.			
Emergency Access. Provision for access by emergency vehicles.			
Sewer and Water Facilities. Include a statement of proposed plans for sewer and water. Show the location and dimension of existing and proposed sewer and water easements, and lines within the tract or immediately adjacent. Include a contour map where terrain might affect location of water or sewer lines.			
Drainage. Location and dimension of existing and proposed drainage easements and			
facilities within the parcel proposed for development or immediately adjacent to it. Show the location, dimension and surface treatment of existing and proposed culverts, bridges, and underground structures within the tract or immediately adjacent. Include a contour map where terrain might affect location of ponds or ditches. Include the volume capacity of all drainage ponds, and the size of the outlet restrictor. Include a Phase III Drainage Report as defined in the Storm Drainage			
Design and Technical Criteria.			
Landscaping. Proposed landscaping materials, including fences, walls, screens, planters and any other landscaping features.			
Irrigation Plan.			
Schematic irrigation plan showing:			
 a. The proposed lap/backflow preventer and irrigation controller location; b. The location of the manual gate valve that will control the entire irrigation system; c. The anticipated type of irrigation proposed for each landscape area or irrigation zone (turf, shrub beds, etc); 			
d. The recommended setback distance of all proposed irrigation heads from back of curb or edge pavement; and e. All proposed sleeve locations.			
Other Significant Features. Significant features including, but not limited to, existing structures, utility lines, natural and artificial drainageways, ditches, lakes, vegetative groundcover, rock outcroppings, geologic features and hazards, dams, reservoirs, mines, fence lines, driveways, servitudes and easements, well sites, septic systems and leach fields shall be shown.			
Lighting Plan.			
1. A lighting plan that:			
 a. Shows the location and mounting height above grade of light fixtures including building mounted fixtures; b. Labels the Lighting Zone of the property and all adjacent properties; c. Shows the location of all buildings, parking, drives, walkways and if applicable any areas dedicated to the outdoor display areas on the lot or parcel; and d. Denotes the type of each light fixture, keyed to a light fixture schedule and picture, cutsheets or line drawings of the proposed light fixtures. 			
2. A light fixture schedule indicating fixture type keyed to the plan, the quantity and type of lamp to be used in each fixture along with the rated lumen output of the			

	lamp, the shielding category in which the light fixture belongs (unshielded,
	shielded, fully shielded, or full cut-off), and a description of the fixture.
	3. Cutsheets, pictures or line drawings of each light fixture keyed to the lighting plan.
	4. For new development, redevelopment or major expansions. A photometric plan
	showing initial horizontal illuminance (maintenance factor = 1.0) calculated at
	grade using a grid of points no more than 10 feet apart and covering the entire
	site (excluding buildings) and extending a minimum of 10 feet beyond the lot or
	parcel property line. The maximum and minimum illuminance values within each
	specific use area (i.e. outdoor display of merchandise, parking, walkways, etc.)
	shall be clearly distinguished. Statistics for uniformity for each specific use area
	shall be included on the plan.
	Photometric plans for sites with existing pole mounted lighting within 50 feet of the property line shall include this existing lighting in the calculation. When
	photometric data for the existing fixtures is not available photometry for a similar
	fixture may be used. The fixture(s) used to represent existing lighting shall be
	included on the lighting fixture schedule and designated as existing.
	5. For new development, redevelopment or major expansions. Documentation of
	the connected load, demonstrating compliance with the limits set in this
	ordinance.
	6. For new development, redevelopment or major expansions. A copy of the
	stamped and approved shop drawings shall be submitted prior to electrical
	inspections. Inspections will not proceed without the submissions to verify that
	the submittal drawings and actual equipment provided were equivalent. If
	installed equipment differs from submittal drawings, calculations shall be
	resubmitted according to these documents. The owner and contractor are
	responsible for substituted equipment meeting all requirements of these
	documents, in the event that they must be removed or replaced.
	7. For new development, redevelopment or major expansions. Aiming angles and
	diagrams for all sports lighting and flood lighting fixtures.
	Architectural Elevations. Representative architectural elevations of all sides of
	proposed structures which show building heights, colors and general textures of
	materials to be used on the exterior of the proposed buildings
	Standard Notes, Certifications, and Dedications. All Standard Notes and Certifications required by the City of Centennial staff shall be included on the plan.
	Any modifications to these notes or proposed non-standard notes must be
	approved by the City Attorney. All notes not meeting these specifications shall be
	removed.
	Additional Information. Additional information may be requested by the Director as
	appropriate to the request, and the Director may waive information required above
	if it is deemed to be inappropriate to the request.
	Misc. Information and Scale. Each sheet of the exhibit shall show the date of the
	survey, north arrow, and the written and graphic scale. The drawing and any
	revision dates shall be shown on the cover sheet. The minimum scale of the drawing
	shall be one (1) inch to one hundred (100) feet. Enough sheets shall be used to
	accomplish this end. Acceptable larger scales are one (1) inch to twenty (20) feet,
	thirty (30) feet, forty (40) feet, fifty (50) feet and sixty (60) feet. The sheet number
	and the relation of each adjoining sheet shall be clearly shown by a small key map
	on each sheet.

I state that the above submittal requirements have been provided in completion of the requirements for submission as required by the City of Centennial, and that all documents provided have been submitted in accordance with the requirements and guidelines of the City of Centennial.			
I also understand that submitting erroneous information or an incomplete submittal may delay the processing of my application.

Purpose of Checklist

This checklist will help to assure that your submittal is consistent with City of Centennial regulations. On the attached checklist, please check the box when the materials have been provided. When all items are supplied, please read and sign the checklist at the bottom and submit it with your application and submittal materials.

The following are the minimum submittal requirements for a site plan application. Please check off the following items to assure your application is complete.

Hard Copy - Outside Referrals (# __ Complete Sets)

Applicant Staff

	11x17" Site Plan exhibit. See attached Plan Checklist for requirements.
	Letter of Intent
	Mailing envelope

Electronic Documents

Applicant Staff

Completed and signed application form
Required fees and fee sheet (fees as determined by staff)
Written letter of intent
Latest plat (if platted)
Any waiver requests
Title Commitment, dated within 90 days, including B-2 exceptions (If amending a Site Plan or Amending a Final Development Plan)
Copies of all recorded documents cited in the B-2 exceptions from the Title Commitment
Certificate of taxes paid
Notarized letter of authorization
Pre-submittal notes
Site Plan exhibit—see attached Plan Checklist for requirements
Site Plan checklist completed and signed
Phase III drainage plan and report
Grading Erosion & Sediment Control (GESC) report and plan (Optional - Can be submitted with CD's)
Pre-submittal notes (Engineering, SEMSWA)
Engineers' Cost Estimate—see template
Traffic Impact Study

2011 Land Development Code Site Plan Submittal Checklist

NOTE: YOU MUST BRING THIS MATRIX WHEN YOU SUBMIT YOUR APPLICATION

STAFF WILL NOT ACCEPT APPLICATION MATERIALS THAT ARE NOT COLLATED AND FOLDED.

I state that the above submittal requirements have been provided in completion of the requirements for submission as required by the City of Centennial, and that all documents provided have been submitted in accordance with the requirements and guidelines of the City of Centennial.			
I also understand that submitting erroneous information or an incomplete submittal may delay the processing of my application.
